

State Announces I-80 Plans For This Year

Out of Springfield last Friday came announcement of the state highway department's plans for 1968, which, of course, included some work on I-80. Of chief interest to the area was the announcement that the interchange at U.S. 45 would be built.

The state has earmarked \$250,000 for a grade separation that will carry the newly located section of U.S. 45 over the Rock Island tracks just north of 191st St. The road now uses the old pass under the tracks that is impassable when there are heavy rains or snows.

The plans also call for \$1,085,000 for paving the interchange on U.S. 30 and also paving U.S. 45 and the span over the Rock Island. Until the interchange at Rt. 45 is built the only two in

the area will be at Harlem Av., Tinley, and on U.S. 30 west of New Lenox.

The state has set \$100,000 aside to buy about half a mile of right of way for the new junction of U.S. 30, Washington St. and Gougar Rd. There are pieces needed in the vicinity of the NI-Gas Co. offices and Providence High School and also west of Washington St.

There is to be a weigh station built at Marley at a cost of \$258,000. The state also has set up a fund of \$313,000 to provide a protective coating on structures on I-80. This protective coating is a coal tar product to cover the slopes on bridges to protect them against salt which may be spread when the surfaces ice up. Salt damages concrete, it was explained.

The state is also plan-

ning to spend \$25,000 on right-of-way for a road to run south from U.S. 20 in DuPage County to I-80 west of New Lenox. Also to be spent is \$98,000 on safety features on I-80 in Will County.

When I-80 will be opened to traffic is a question that will be answered out of Springfield.

In late 1966 it was announced that the east-west transcontinental highway would be open to travel thru Illinois in November, 1967. Later the target date was set for Dec. 9, for the "Missing Link" section between Joliet and Hazel Crest.

This was the only section of the highway unfinished in Illinois. The paving was completed by Dec. 9 but engineers reported there were still some guard rails and fencing to be installed be-

fore the road could be opened for use. Just before the target date highway engineers said the opening of I-80 would be delayed until sometime between Dec. 16 and Jan. 8.

On Tuesday of this week the district engineer's office said they had no word as of that date as to when I-80 would be opened to traffic, that such word would have to come out of Springfield.

Officials of Mokena, Frankfort, New Lenox, Orland Park and Tinley Park wrote congratulatory letters to Gov. Kerner and other

officials relative to the progress made on I-80 and suggested that the opening of the road to travel be marked with a celebration.

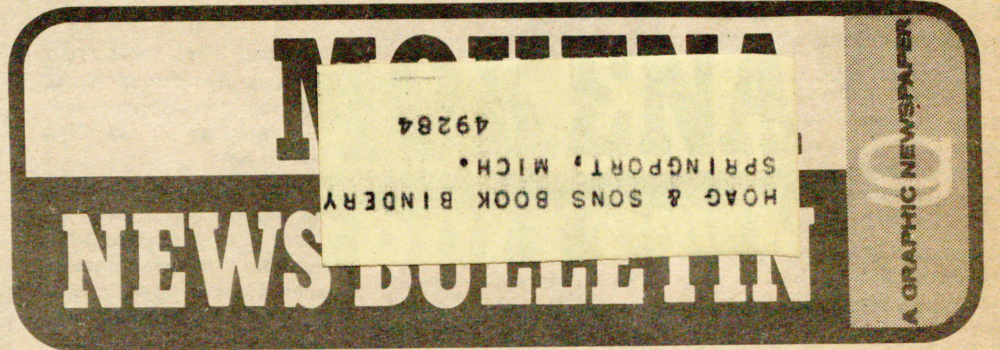

So far no one at state level has said anything about such a celebration. It has been pointed out that with Illinois celebrating its 150th anniversary this year and a general election is coming up it may be that the governor and his lieutenants plan celebration later, with or without political overtones.

It was the U.S. defense department that is credited

with pushing the work on I-80 and that wanted it open to traffic by last month regardless of whether all the interchanges were completed.

The interchange at U.S. 45 will not be built until later this year, it was said, and there is an interchange in the city of Joliet that is not ready but other interchanges have been finished and traffic was supposed to roll.

Area traffic could get on I-80 at the Harlem Av. cloverleaf on the west edge of Tinley Park or off of U.S. 30 about a mile west of New Lenox.

New Postal Rates Will Become Effective Sunday

Another increase in the cost of living goes into effect next Sunday, Jan. 7. On that date the post office puts its new increased rates into effect.

There will be no increase in parcel post or international mail postage, it was said, but there will be a hike in first class and air mail rates.

Nearly 10,000 postage vending machines--the post office kind--including those in the post offices of New Lenox, Frankfort, Mokena and Orland Park, will be converted within the next three months to reflect the new rates. Five different types of machines are involved. After conversion the machines will dispense 5-cent and 6-cent stamps and a new model will offer 1-cent, 5-cent and 6-cent stamps.

These machines, postal authorities point out, are not to be confused with those vending stamps on a commercial basis, such as may be found in stores.

Even with the new rates of 6-cents for first class mail and 10 cents for air-mail, instead of 5 cents and 8 cents, postal service is still a real bargain area postmasters point out.

"For six cents you can send a letter to any of the 50 states, to any United States territory or possession, Canada or Mexico or to an American serviceman stationed anywhere in the world," the postmasters said.

Postcards will take a five cent stamp.

The postmasters discussed the increase. The added cent in the letter rate is a 20 per cent increase, they explained, compared to a 24 per cent boost in the rates for mailing newspapers and magazines and a 34 per cent hike for advertising circulars, "occupant" mail, and other material in the third class category.

The new rate of six cents per ounce for first class mail applies up to 13 ounces, the postmasters said, and the new rate of 10 cents an ounce for domestic air mail applies up to seven ounces. Under the new rate structure all first class mail over 13 ounces and all air mail over seven ounces will be merged into a single category.

These heavier pieces of first class and air mail subject to the single rate schedule will be delivered by the fastest available means of transportation.

A flat rate of 80 cents will be charged for all mail in this category up to one pound. For all mail weighing more than one pound, the present air parcel post rates will continue to apply, except that the postage on matter weighing between one and five pounds will change at half-pound intervals instead of of one-pound intervals.

The new rate structure, it was said, will mean a reduction of postage on some parcels.

Another rate change that will effect the general public is the increase from four to six cents for the first two ounces of individual pieces of third class mail. Unsealed greeting cards may be sent at this rate, the postmasters added.

The postmasters noted that effective next Sunday special handling will be available on third class parcels weighing between eight and 16 ounces. Special handling has not been available on such parcels since 1958, when packages weighing between eight and 16 ounces were transferred from fourth to third class mail.

There are no changes in the charges for special delivery, special handling, registered mail, certified mail, cash on delivery or insurance, the postmasters said.

Carl Bormet, Orland, Dies

Carl M. Bormet, 75, township highway commissioner of Orland Township for more than 30 years and a life resident of the area, died Tuesday, Jan. 2, at St. Francis Hospital, Blue Island, following a short illness.

Mr. Bormet resided at 80th Av. and 64th St., Orland Township. He was born in Orland Township June 12, 1892, and farmed there all his life.

He was active in agricultural affairs and was chair-

man of the Agricultural Stabilization Committee for Cook County for 27 years.

Mr. Bormet and his wife, the former Natalie Breitbarth, celebrated their golden anniversary two years ago.

Besides his wife, Mr. Bormet is survived by two daughters, Miss Rose and Mrs. Gertrude DeValk, both of Tinley Park; three sons, Carl A. and Robert, also of Tinley, and Emil H. of Orland Park. Also surviving are 20 grandchildren and two great grandchildren.

Mr. Bormet was preceded in death by two sisters, Mrs. Katie Keuch and Mrs. Amelia Arnold.

Removal was to the Hirsch Chapel at Tinley Park where friends may call today after 2 p.m. and at Trinity Evangelical Lutheran Church tomorrow from 11:30 a.m. to 2 p.m. when funeral services will be conducted with the Rev. A. F. C. Pfotenhauer

officiating. Interment will be in the parish cemetery.

New Year Starts Off With Sub-Zero Cold

It was a rather chilly evening -- New Year's Eve.

The temperature went sliding toward zero during the day and made it well before sundown. The mercury kept on going down and by midnight the reading was in double figures.

There is no official thermometer in these parts so how cold it was depends on what your thermometer registered. One of the TV weathermen said Tinley Park had a low of 14 below zero.

At Mokena readings varied from 12 to 20 -- below zero of course -- and similar reports came from New Lenox, Frankfort and Orland Park.

While there is disagreement as to just how far below zero the mercury dropped New Year's Eve, everyone agrees that it was quite cold. There have been cold New Year's Eves before but the current one was one of the coldest. There was one back in the 1920's when the thermometers registered temperatures about the same as greeted 1968 but was even more unpleasant because a wind, that caused snow to drift and stall cars, intensified the cold. There were people in northern Illinois that died from exposure at that time and others hospitalized. So far as is known no one in the area was overcome by the cold this year.

CARPETING AND CONFUSION!

NOEL E. SMITH

Of all the items purchased for homes today, selecting a carpet, without doubt, causes more confusion and apprehension among buyers than any other single transaction. This confusion can lead to improper selection, leaving many a purchaser disappointed with the choice in a relatively short time.

We know that in this highly competitive and promotional age we get what we pay for. We cannot rightfully expect more, nor should we receive less. By this logic, nothing is free.

It is the home decorators duty to suggest the proper weave, fiber and weight of carpeting for the specific area in which it is to be used. We often see carpeted rooms in which the carpeting was selected with little if any thought given to the purpose it would serve. Because of such mistakes in selection, the home owner often feels he did not receive true value for his investment. Yet, the carpet he is unhappy with might have served well in another room or area.

Equally as important as the correct choice of carpet weight and fiber is the choice of style and weave. In our decorating work we give careful consideration to the architectural style of the home. Among the most popular styles are Ranch Modern, Cape Cod and the formal style suggesting 18th Century decor. Each style must be treated individually, with the carpeting and furniture selected to bring out the best character of the home. If you're unsure about carpets, remember: there is no charge for our decorating service. You pay only for the Merchandise selected.

Orland Merchants Beat Joliet Five

The Orland Park Merchants, the basketball team sponsored by the Orland Park Chamber of Commerce defeated the Red Wittys of Joliet 118 to 82 in a non-league game played last Thursday night on the losers floor.

The opening tip was controlled by the Merchants and

Sandy Smith drove in for a lay-up to put the Orland team in a lead it never relinquished.

The superior height of the Merchants gave them board control over their smaller adversaries. Smith, 6'3", scored 10 baskets for 20 points but the high point man for the Merchants was

6'10" Don Schook who had 15 buckets and two free throws for a 32-point total. Bill Kacerovskis, 6'6", had eight baskets and a free throw for 17 points. Lee Featherstone, 6'5", had seven baskets and a free throw for 15 points; Rich Aird scored seven buckets from the floor for 14 points and Charlie Brown, a new acquisition had six baskets for 12 points. Jerry Abrahamson, who had been having a bout with flu, came off the bench late in the quarter to score eight quick points with outside shots.

High point man for the Wittys was Sparlin, with 13 baskets and two free throws; Penosky had eight buckets for 16; Jones had seven floor goals and one free throw for 15; Lochnar's three buckets and five free throws gave him 11; Ausc had four baskets and Hacey two, to collect eight and four points respectively.

Blind Price Of Milk Holds October Level

Holding at the October level, a blend price of not less than \$4.76 per hundred-weight will be paid dairy farmers in Pure Milk Association's Chicago market pool for November deliveries of Grade A milk to plants in the marketing area, Jesse Cook, supervisor of the pool, announced today.

The \$4.76 price is for milk of 3.5 percent butterfat content sold in Zone 1, which includes the marketing area of Cook and DuPage counties and adjoining townships in Lake, Kane and Will counties. It reflects close similarity in production levels and sales for the two months.

Weather Causes Severe Loss For Area Farmers

The weather has dealt the farmers of this area a fearful blow this season, reports reveal, and as a result Illinois business men will get a smack that will hurt right thru their pocketbooks.

Of late years it has been the fashion to pay little attention to the farmer—with the vast pool of improved farm machinery and farming methods at his disposal it has been generally expected that today's farmer can produce in any desired volume, under any conditions.

A big yield of corn and soybeans was predicted for Illinois farms this fall and probably would have mat-

erialized had it not been for the rains.

Sometimes there were several days between rains but such periods were not

long enough for the ground to dry out sufficiently to get machines in and out of the fields. All that fine machinery, sighed one land-

owner, is not worth a dime if one can't use it.

According to reports from the Will County Farm Bureau between 25 and 30 per cent of the corn crop is still in the fields and there is little hope that a substantial portion of it can be salvaged.

It was also reported that about five per cent of the beans are still in the fields.

The cold has frozen the ground so it will hold machinery but in the meantime a lot of grain has been rotting where it stands, it was reported.

It was estimated that Will County farmers would suffer a \$2.5-million loss on corn this year, and, it was pointed out by Farm Advisor A. A. Wicklein, two and a half

million dollars would pay a lot of bills.

Moisture content of corn is a big factor in the purchase of corn at the elevators. The base for moisture is fixed at 15.5 per cent. When the moisture runs higher than that the grower suffers a penalty. Prior to Dec. 18 this penalty ran to three cents a point over the 15.5 base; since Dec. 18 the penalty has dropped to two cents. This is still a big jolt for many producers, it was pointed out, because much of the corn is now running 30 per cent or higher in moisture.

The price of corn at the elevators was running around \$1.05. If the moisture content was 30.5, that would

be 15 points which since Dec. 18 would have been two cents each or 30 cents so he would get 75 cents a bushel for his corn.

Some farmers, it was revealed, took more substantial losses because their corn was damaged as well as wet.

Farmers who had access to dryers managed to cut their losses. At commercial dryers the cost was eight cents a bushel, it was reported, if the moisture is under 30 per cent, over 30 it runs 10 cents a bushel. Farmers who have their own dryers say that it is costing them about five cents a bushel to bring 30 per cent moisture down to 15.5, it was reported.

Junius Elmore Dies; 12 Year Resident

Junius Elmore, 56, of Marley died Friday, Dec. 29, at Cheyenne, Wyo., after a brief illness.

Born in Boughton, Ark., he had resided in Marley for the past 12 years. Mr. Elmore was employed in the supply room of the Electromotive Co. at LaGrange.

Will Explain Details Of New Lenox Water Program

Block captains people who will acquaint their neighbors with details of the proposed central water system program for New Lenox, are scheduled to meet tonight (Jan. 4) at 7:30 o'clock in the New Lenox Village Hall.

They will be furnished with written material as well as being briefed verbally on the program so they will be able to furnish information on the subject to their neighbors.

There are some 50 block captains, it was said, who are expected to carry the message thruout the community.

Members of the village board will meet with them. One of the purposes of this

canvass by the block captains, it was said, is to ascertain the number of residents who want water service. This is an important question, it was pointed out, in talking with bond houses.

New Lenox is the only village in the area that does not have a central system. This could serve as a bar to further development of the community, it was said.

As of now the fire department must depend upon the water it can transport to the scene of a blaze with a consequence that insurance rates are higher than they would be if there were a central water supply under pressure and available thru hydrants, it was pointed out.

There are plans under consideration for a shopping and multiple residential center in the vicinity of Washington and Cherry Hill Rd., and there is talk of motels and services to be built because of I-80 having an interchange with U. S. 30 west of New Lenox. There is also talk of possible location of industries in the New Lenox area. Such development, it has been pointed out, will necessitate a central water supply. Sewer main extensions will also be needed.

Having a water system will make it easier to collect the sewer rates, it was said, as it is easier to cut off water than to cut off sewer service.

Hold Third

Athletes Program

Sandburg's Eagle Booster Club President, Ted Pnizek, cordially invites the members of the community to attend their third annual Girl Athletes-Ladies Program on Tuesday, Jan. 9, at 8:00 p.m. in the Carl Sandburg high school girl's gym.

Thirty, pert, pretty, and svelte young ladies will give a demonstration of their athletic skills. The program will be under the direction of Miss Phyllis Goll.

The girls have been selected from freshmen, sophomore, junior, and senior physical education classes on the basis of their ability. They will exhibit skills developed by competent instruction and practice. Based on past performances this is one night that you will not want to miss. Start the New Year right! Don't Miss the Misses!

Host and hostess for the evening are Mr. and Mrs. Ted Pnizek.

Church Of The Nazarene Reports Many Gains In 1967

The Church of The Nazarene in 1967 had notable gains in membership, stewardship and in Sunday school enrollment; also in 1967, participation in the Vietnam war made its sharpest impact on the denomination, it was reported this week at church world offices in Kansas City, Mo.

World membership climbed to a total of 453,187 persons--a net gain of 20,470 over a year ago. Sunday school enrollment increased to 983,525--a gain of 57,000 over 1966.

Per capita giving was a record \$190.13 -- an increase of \$10.43 above the previous peak of \$179.70 in 1966.

Giving for all purposes reached \$69,792,571 -- an increase of \$4,897,102 over 1966.

Mirroring the war impact, the names of seven Nazarenes killed in Vietnam were added to the War Memorial plaque in 1967. This made a total of 16 gold stars on the Vietnam roll. More than 8,000 Nazarene young men were in the Armed Forces in 1967.

It appeared likely that the denomination would achieve its goal of one million persons enrolled in Sunday school by the 17th quadrennial General Assembly to be held in June, 1968, at Kansas City.

The annual statistical report by Dr. B. Edgar Joannson, general secretary, showed a domestic net gain of 7,532 members, with a gain of 12,938 members overseas, for the total world membership gain of 20,470. The Nazarenes had a net gain of 32 churches which brought the denominations with 100,000 or more members.

The New Lenox church of

the Nazarene has shared in the growth and advancement of the entire denomination in the past quadrennium, it was reported. Gains have been made in all departments and has given 11% of all monies raised for the missionary work. The Missionary society has been a "Star Society" since its beginning, and the church has received the "Church of the Year"

award the past two years, having reached all goals as set by the Chicago Central District.

A number of improvements have been made on the present building and early this year, a new church organ will be installed. Plans for adding a sanctuary to the present plant is in the making. The church was organized in February, 1959.

Providence Freshmen To Register Jan. 6

Present eighth - graders who will attend Providence High School, New Lenox, next fall will register and take entrance examinations on Saturday, Jan. 6, 1968.

The tests will be administered in classrooms starting at 8:30 a.m.

A registration fee of \$10 is to be paid at the time of registration. The fee is non-refundable, and it is used to offset the cost of the examination and to place all information about the student into the computer at Lewis College. This computer handles all of Providence's financial and academic record-keeping.

Students are asked to know their date of baptism for the registration.

Girls will not be measured

for uniforms. This will be taken care of later.

Plenty of parking space is available. While students are taking examinations, parents may visit in the cafeteria, where refreshments will be served.

The registration and examination will require approximately three hours.

Providence is located at the intersection of Highway 30, Washington Street, and Gougar Road, Interstate 80 is two blocks east of the school.

Open Letter from the HIRSCHS'

Dear friends,

If circumstances make it more convenient, we make available an Insured Payment Plan, making it possible to budget all or any part of funeral costs over a 12, 24, or 36 month period, with the balance of the loan insured.

Our firm has always had complete funeral services in every price range. All of our prices are plainly marked, and there are no 'unexpected extras'.

Respectfully,

Carl Hirsch

Remember, Driver's License Fee Is \$5

Secretary of State Paul Powell today reminded drivers that the fee for renewal of their driver licenses is now \$5.

The fee was increased by the 1967 session of the General Assembly from \$3 to \$5 to provide additional funds for the Driver Education Program in high schools. Of the present fee, \$4 goes to the Drivers Education Fund and the \$1 to the Road Fund.

Mr. Powell said he was bringing this information to the public's attention at this time because he has been advised that, despite the fact that application blanks showing the \$5 fee have been widely distributed, there appear to be some areas of the state where individuals

are obtaining the old blanks showing the fee as \$3.

Since the law now requires the \$5 fee, all applications submitted with only \$3 must be returned, regardless of which application blank is used.

This, Secretary Powell pointed out, causes a delay and may result in the applicant's license expiring before the new one can be prepared and forwarded.

Mr. Powell urged all persons applying for renewal of their licenses to use the completed application blank mailed to them 30 days prior to the expiration date of their licenses, as the correct fee is shown on it. Only corrections and answers to questions need be added to these application forms.

Names Head Officer Of Apple Chem.

Marvin Chandler, chairman and president of Northern Illinois Gas Company, has announced the election of Robert J. Eby as vice - president and general manager of Apple River Chemical Company, a NI-Gas subsidiary. He was also named a director

of the company which produces anhydrous ammonia at East Dubuque, Ill. Eby was formerly vice-president -- marketing.

He assumed his new duties Jan. 1, succeeding William E. Preston who has retired as executive vice-president of Apple River. Eby began his career at NI-Gas in 1941, and before

going with Apple River early in 1966, held numerous supervisory positions, including that of division manager. The Ebys and their three children reside in Dubuque, Ia.

Secretary Powell advised drivers to comply with the law by notifying his office within 10 days of any change of name or address, and thus be assured of receiving the advance notifications.

Cub Scouts Of Den 3 Win Party Attendance Award

MRS. SHERMAN KNOX
Telephone: 349-0211

The Orland Cub Scout Pack 318 met Dec. 15, for their annual Christmas party and pack meeting. The meeting opened with presentation of the colors by Den 3. While the group sang Christmas songs, each scout helped decorate the tree with an ornament he had made at his regular den meeting. The scouts brought canned goods to be distributed to needy families in the area, then the boys exchanged grab bag gifts.

Santa made an appearance and all the scouts and their brothers and sisters were given a candy cane. Cupcakes and punch were served at the end of the meeting. Den 3 won the attendance award for having the most parents

present. Awards were presented to the following boys: Bobcat: Mark Yunker, Jeff Adams, Greg Dowdy, George Oakley, Patrick Piper, Michael Manning, Daniel Ramage, Arnold Proper, James Rennie, Keith Kuck-enbecker, Wayne Wilson, David Erasmus, John Brown, Charles Kozar, Mike Smukula.

Wolf: Glenn Carevic, Don Uhlir, Mark Swanson.

Traffic Deaths Up In Will Co. For 1967

The annual report of Will County Coroner Willard G. Blood shows the automobile responsible for more than half of the 190 violent deaths recorded in the county in 1967.

There were 96 deaths attributed to traffic mishaps. Coroner Blood said that drinking and speed were factors in many of these traffic deaths. The 1966 traffic toll was 75.

A breakdown of the traffic deaths show 17 persons died in one-car crashes; 43 in two-car collisions; five in a multiple car collision and fire. One life was claimed in a three-car crash, and one in a four-car collision. One person was killed in falling from a moving car; four were killed in an auto-train collision; one in an auto-bus collision; three were killed in auto-motorcycle collisions; two other motorcyclists were killed in other accidents; one person died when the car in which she was riding went into the Illinois Waterway; 13 pedestrians were killed.

Five persons were killed in air accidents in the county; four died of accidental gunshot wounds; six persons were accidentally electrocuted.

Fires and smoke took 17 lives and 23 persons died as a result of falls in their homes.

Thirteen persons died in farm and industrial accidents.

There were nine homicides in the county, the coroner said, and 19 suicides.

HEART GROUP SAYS CIGARETS ARE DEADLY

"Resolved that I will not start smoking cigarettes, a habit which may be hard to break and which may cost me health and life."

With youthful cigarette smokers increasing at the rate of more than a million a year, the Illinois Heart Association has proposed the foregoing New Year's resolution for the young people of the state.

The Association pointed out that damage to the heart and lungs begins early among cigarette smokers, and that there is evidence to indicate young tissues are more severely affected than old.

Chandler Reports NI-Gas Had Record Year In 1967

Record 1967 highs in natural gas sales, earnings, dividends, plant investment and number of customers were established by Northern Illinois Gas Co., according to Marvin Chandler, chairman and president.

In summarizing the year's operations, Chandler reported that operating revenues thru Nov. 30 were up about nine percent over those of 1966; record dividends of \$1.52 a share were paid on the company's common stock; plant investment rose to \$576 million; and the number of customers climbed to 975,000, an increase of more than 30,000.

Sometime in 1968, Chandler said, NI-Gas expects to obtain its one-millionth customer.

During the year - in order to meet the increased demands for natural gas thru-out its 16,000 square mile service territory - NI-Gas increased its daily purchase of pipeline gas by 15 percent or 140 million cubic feet, thereby boosting its available pipeline supply to well over one billion cubic feet a day.

This, added to the supplies the company has in its several underground storage facilities, means NI-Gas is now able to distribute nearly 2 1/2 billion cubic feet of gas a day. On winter's coldest days, Chandler said, about one-half of the gas used by NI-Gas' 800,000 heating customers comes from underground storage.

Chandler said that residential space heating sales prove the public's preference for natural gas for home heating. "During 1967, we obtained 36,000 new heating customers. Natural gas central heating systems are installed in 90 percent of all new homes built in the area we serve," he noted. "In addition, we are continuing our substantial conversion program. During 1967, for example, about 10,000 households that previously used other fuels, changed to gas heat."

The acceptance of gas for other residential uses is another dominant factor in explaining the steady upward trend in gas sales, he said. Referring to new home construction, Chandler said that gas is the preferred fuel for water heating (93%) and cooking (75%); and where clothes dryers are installed, 80 percent of them are gas.

"Nor can we overlook the other residential uses for gas such as incinerators, space heaters for added rooms, gaslights and barbecue grills," he said. "Thousands of these units were sold this year in our service territory, providing new standards of comfort and convenience for many of our customers."

"A relatively new market for natural gas, and one that is developing rapidly, is air conditioning," Chandler said. "In five years, residential central air conditioning installations have increased nearly ten-fold. In the large-tonnage field, we get at least one-third of all applications."

Chandler also reported gains in the sale of natural gas total energy, a system designed to heat, cool, light and power the facilities of

industrial and commercial users, with all the energy provided from a single source - natural gas.

"The generation of electricity on premises with a natural gas engine or turbine generator system con-

tinues to gain support among businessmen," he said. "We look forward to the day when these advantages of overall economy and reliability will be shared by residential customers who will obtain all of their home's energy

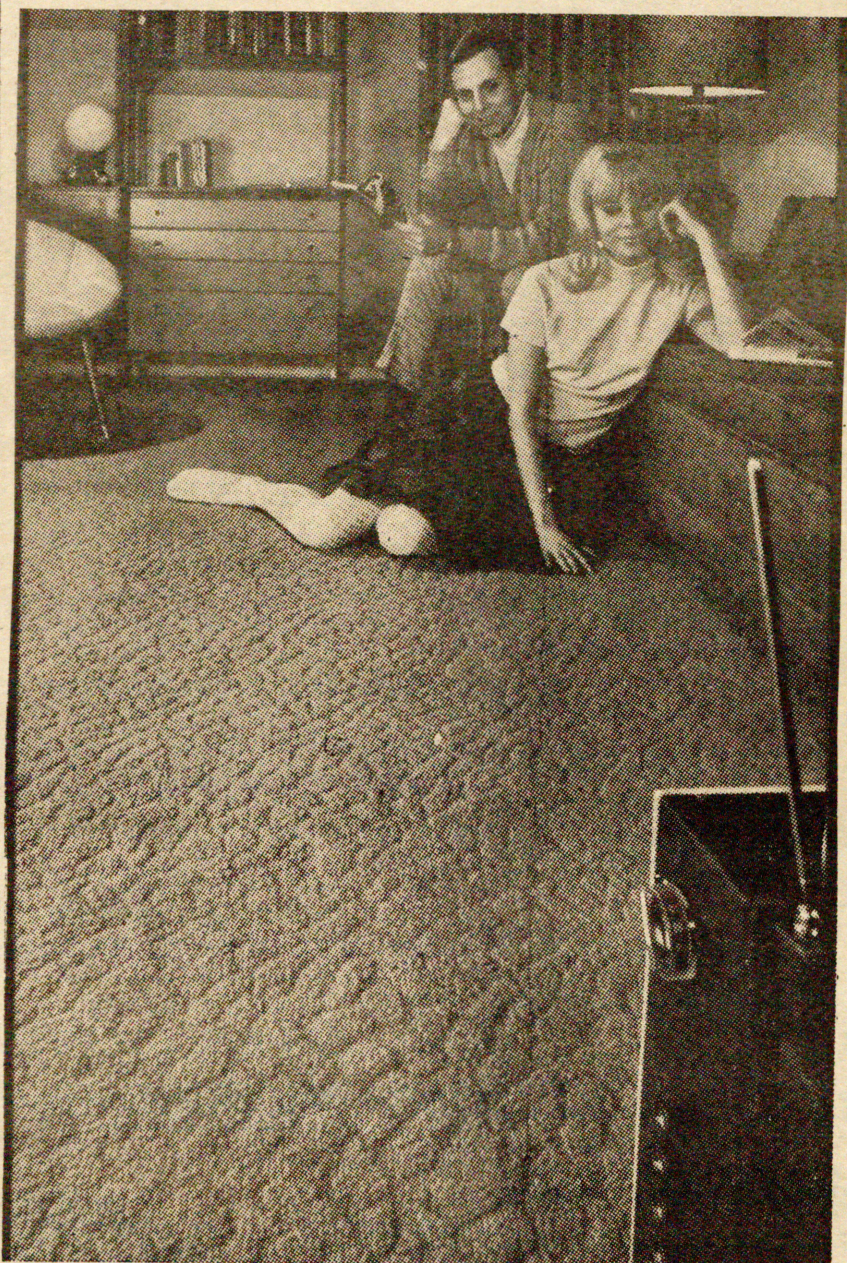

requirements from a natural gas fuel cell." NI-Gas is one of 27 gas companies currently participating in a \$21 million research program to develop a fuel cell power plant for broad consumer use. The fuel cell could con-

tribute substantially toward solving the country's serious air pollution problem. In the meantime, NI-Gas is helping all fuel users lessen the amount of air pollution by furnishing them with clean-burning natural

gas.

On the matter of safety, Chandler said that NI-Gas is - and always has been - concerned about the safety of its customers, its employees and the general public.
